woodlinesrl

Wood Line S.r.l, a family business, with almost 40 years of experience in designing and manufacturing indoor and outdoor furniture, wall coverings parquet flooring and display stands and units, boasting flexible services for hospitality, retail and private residential projects.

Born in Sansepolcro, in the extreme East of Tuscany, Italian tradition of craftsmanship within a modern industry, History, culture and tradition are our heritage.

Today Wood Line Srl, employ a workforce of highly skilled craftsmen and cabinet engineers. The success and growth which has been achieved over the years is attributed to the dedicated trained employees.

Such skills are complimented by the continuous investments made in highly advanced machinery that provides the constant quality production along with internal digital printer and personel, allowing immediate personalization on products. With an established, qualified, active and helpful office team with internal Architect and designers.

Hosting vast and versatile machinery, our casegoods, cabinetry, wall panelling and personalized parquet production are followed and executed within the company, from raw material to assembly, packaging, all within the factory walls, years of experienced production, creating perfection of manufacturing with internal quality control, direct services of quick efficient delivery straight from production to client.

Each project is thoroughly evaluated to identify important issues and opportunities, then make suggestions and create solutions that save our clients time and money, resolving problems and highlighting the functionality of the product.

Realized and manufactured by Wood Line S.r.l, designed by external design studio.

The study of suitable materials, the care of production details and the people at the center of each project; these are the challenges and characteristics that make the projects created and the services offered by Wood Line unique.

Wood Line's machinery, work space and man power, enable to meet a wide spectrum of requests:

- Milling, CNC machines, for processing wood and derivatives, PVC, Polycarbonate, PET, aluminium.
- Laser cutting for wood and derivatives, iron, steel, aluminium, PMMA
- Panel edging
- UV painting plant
- Manual painting plant
- Panel covering and finishing
- Profile coating and finishing
- Hot bending for plastic materials
- Cold bending for metals, thermoforming of plastic materials
- Metal welding
- Digital printing

Display stands and units.

DISPLAY STANDS AND UNITS:

Our company has been operating in the Display sector for many years: This is because Wood Line provides and guarantees professionalism, service, quality and appearance of the final product. We have behind us, many years of experience in this sector, providing our services to companies of “ Beauty and Wellness”, “Furniture Suppliers” also to restaurants, supermarkets, pharmacies and many others.

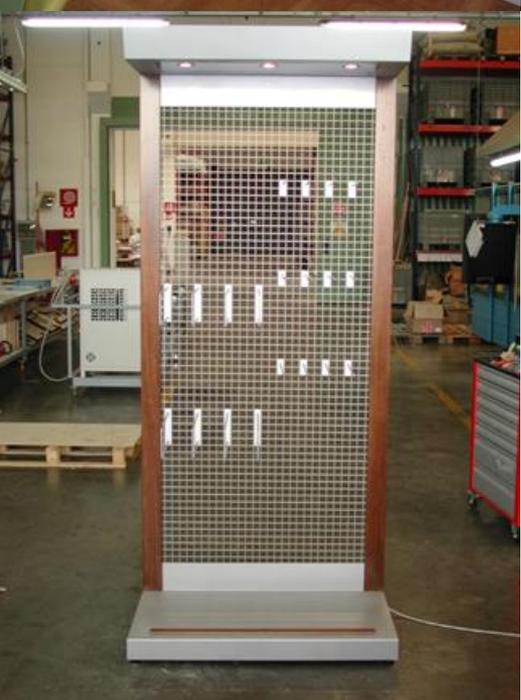

Floor and counter displays, promotional islands, display stands and entire displays for shops and sale points created for prestigious clients; we take care of creativity and production with continual attention to the product and the final consumer.

All this is possible thanks to the particular and never predictable use of many materials, such as, wood, plastic, metals, and derivatives as a few examples... which allow our products to be unique and effective, respecting the criteria of the client.

Wood Line creates display stands that can maximise brand and visibility. Creativity and quality for setting up of sale points and stands.

Wood Line designs and manufactures high-performance solutions to catch the eye of passers-by who become customers.

This is a collection of decorative surfaces and floors. A combination of wood, used as a base material, with inserts of steel, leather, glass, brass, stone and marble.

The collection is made from Oak wood parquet, presented in many variations of colour and finishes. It is produced as a decorative inlaid tile in various sizes and materials, that can be combined to numerous colours and types of parquet.

The collection of Foot Bare, where this can be modified with different colours, finishes and materials, or with the bespoke production for the client who desires a personalized flooring, depending on the taste and need of the client and environment.

You can see all of this by visiting our website: www.footbare.com

Deco+

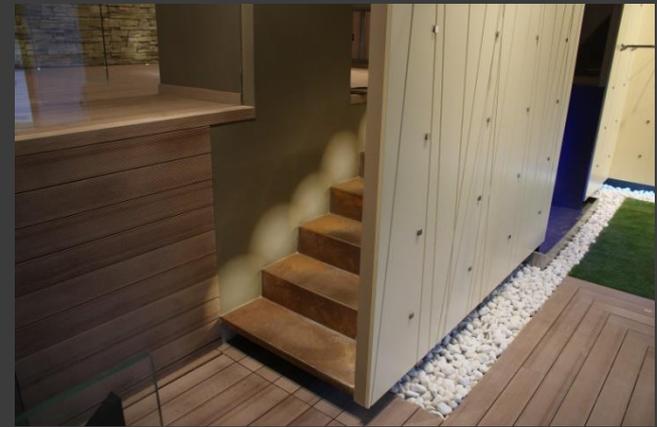

PANNELLI DECORATIVI
DECORATIVE PANELS

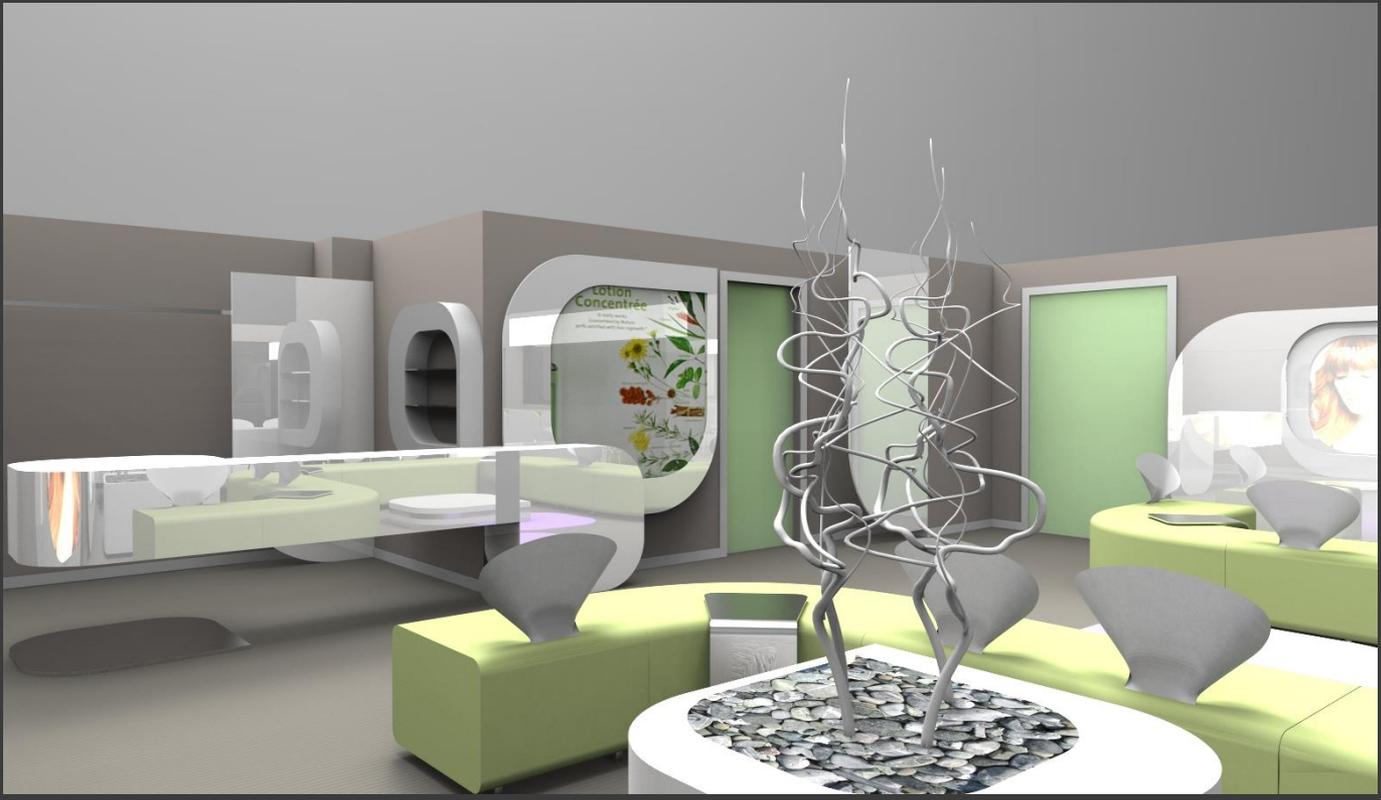

Deco+ is a collection of decorative panels for residential, hospitality, retail, offices, restaurants and Spa.

Perfect to furnish both your interior and exterior walls in a simple way.

It's sinous or geometric and rigorous forms are the distinctive mark of your spaces, choose from our rich collection, with a three dimensional projection of «full and empty» than that of the two dimensional wall as a limit. Possibilities of different finishes and surfaces with limitless colours make Deco+ the best interpreter of the character of your space, the stance of a simple project, the functional and refined look, the synthesis between idea and creation. For those who dream and look to their reality, Deco+ bespoke, is there for Wood Line to produce your imagination.

Wood Line is proud to work with, direct clients, often with Interior designers, Architects and design studio's, contractors, constructing companies, also as sub contractors.
