Deco+ è il marchio che abbiamo scelto per lanciare le **5 linee di prodotto** Wood Line riguardanti i pannelli decorativi per interni ed esterni:

1

I pannelli **Deco+** sono realizzati in **MDF speciale** più compatto del normale, a richiesta possono essere realizzati in MDF idrofugo ed in MDF ignifugo. La misura standard è m.2,44x1,22 con uno spessore di 18 mm. La misura massima è m.3,20x1,87 e con uno spessore di 22mm.

2

Deco+ COLOR, pannelli realizzati con **MDF colorato** nella massa, da utilizzare grezzi o con una verniciatura trasparente. Per questo modello la misura disponibile è m.2,50x1,25 spessore 19mm.

3

Deco+ NATURE, pannelli in legno ricomposto, sono realizzati in tutte le essenze disponibili sul mercato. L'unica misura per questo articolo è m.2,44x1,22. Come i precedenti possono essere forniti grezzi oppure verniciati opachi-satinati-lucidi. I disegni realizzabili sono quelli che prevedono dislivelli di lavorazione non superiori ai 5mm.

4

Deco+ MASSIVE, pannelli in **legno lamellare**, sono realizzati in due delle essenze disponibili sul mercato. L'unica misura per questo articolo è m.2,40x1,20 spessore 19mm. Come i precedenti possono essere forniti grezzi oppure verniciati opachi-satinati-lucidi.

5

Deco+ PLASTIC, pannelli in **PVC semiespanso** materiale che consente il loro utilizzo all'esterno, con pareti ventilate e non, sott'acqua senza nessuna limitazione, nei bagni, vasche, docce, rivestimenti di mobili da bagno; interessante è il loro utilizzo nel settore nautico. Sono inoltre pannelli ignifughi, accompagnati da relativa certificazione. Sono possibili elementi lisci per fare le combinazioni che vorrete. La misura massima disponibile è m.3,00x1,50.

INFORMAZIONI TECNICHE

Il disegno può essere sia in verticale, come quello delle illustrazioni, che in orizzontale. Con alcuni articoli si possono realizzare pareti continue, ma occorre comunque realizzare una piccola fuga tra elemento ed elemento. Sono realizzabili anche disegni proposti dal cliente.

Alcuni tipi possono essere rivestiti con pelle, stoffa, sughero ecc.

I pannelli possono essere forniti grezzi, verniciati con solo fondo carteggiato e pronti da essere sovraverniciati, verniciati bianchi con mano di finitura, verniciati nei colori della nostra cartella o su indicazione del cliente. Per appendere i pannelli o fissarli possono essere utilizzati agganci a baionetta disponibili sul mercato o nastri adesivi tipo 3M Dual Lock. In caso di rivestimenti di pareti curve i pannelli vengono opportunamente lavorati sul retro.

With **Deco+** we propose the **5 product lines** of internal and external decorative panels:

1

Deco+ panels are realized with an especial MDF. More compact than the normal, and, on request, also fireproof and waterproof MDF. The standard size is mt. 2,44x1,22, thickness 18mm. The maximum size is m. 3,20x1,87, thickness 22mm.

2

Deco+ **COLOR** is the line of panels realized with colored throughout MDF that can be utilized in raw finish or with a transparent varnish. The size available for this article is m. 2,50x1,25 thickness 19mm.

3

Deco+ **NATURE** is the line of panels realized in all the essences of recomposed wood available on the market. The only size for this article is mt. 2,44x1,22 and the panels can be sold unfinished or varnished with an opaque/satined/bright finish varnish. For this articles we can utilize only drawings with a working difference of level, not over 5mm.

4

Deco+ **MASSIVE** is the line of panels realized in two essences of laminated wood available on the market. The only size for this article is m. 2,40x1,20 thickness 19mm and the panels can be sold unfinished or varnished with an opaque/satined/bright finish varnish.

5

Deco+ **PLASTIC** is the line of panels realized in semi-expanded PVC that permit to utilize them for external applications, in ventilated (or not) walls, underwater without limitations, for bathroom, tubs, showers or to cover bathroom furniture. They could be utilized in the nautical applications too. Moreover we can furnish fireproof panels too with the relative certification. There are smooth panels available to make the combinations that you prefer. The maximum size available is m. 3,00x1,50.

TECHNICAL INFORMATIONS

The design can be horizontal, as you can see on the illustrations, or vertical.

It is possible to realize full walls with some articles, but there will be a small grout between the panels. Moreover it is possible to realize drawings proposed by the costumer. Some articles can be covered with skin, leather, cork etc.

Panels can be sold with raw finish or varnished with a sanded undercoat paint ready for varnishing, varnished with white finish or with the colors of our color card or with colors requested by the costumer. It is possible to fix or to hang the panels by bayonet couplings available on the market or 3M Dual Lock adhesive tape.

If you need to line curved walls we can work the panels on their backside, to accomodate.

Deco+ è il pannello decorativo per abitazioni, uffici, hotel, ristoranti, spa...

che arreda in modo elegante e semplice le pareti.

Le sue forme *sinuose oppure geometriche e rigorose* sono il segno distintivo del vostro spazio, anzi sono esse stesse uno spazio, **una proiezione tridimensionale di pieni e vuoti** che annulla la tradizionale bidimensionalità della parete intesa come limite.

Le dimensioni del pannello Deco+ e la possibilità di personalizzare con infiniti colori e finiture le sue superfici, rendono Deco+ *il miglior interprete del carattere di uno spazio, il segno di un progetto semplice, perché funzionale, ma raffinato.*

Una concreta **sintesi fra ideazione e creazione.**

Deco+ is the decorative panel for houses, offices, hotels, restaurants, spa...

*Perfect to furnish your interior walls in a **tasteful and simple way.***

*Its sinous or geometric and rigorous forms are the distinctive mark of your spaces, nay they are an expecial space, a **three-dimensional projection of "full and empty"** that annul the traditional two-dimentionality of the wall as a limit.*

Dimensions of Deco+ panels 2440x1220x18mm and the possibility to finish its surface with numberless colors make

Deco+ the best interpreter of the character of your space, the mark of a simple project, because it is functional and refined.

*A concrete **synthesis between ideation and creation.***
